# QT CATs – Introduction

Let us introduce ourselves further…

This charity originated during the Covid-19 lock down with the concern for Queenstown's Community CATs.
Queenstown will most likely be the worst affected region of New Zealand with the Covid-19 economical fall out, we will have one of the highest job losses, and QT will be the slowest economic region to recover.
We at *QT CATs* are concerned that so many people will have to make hard financial decisions when it comes to their felines, and we foresee a tidal wave of cats being given up/ abandoned/ surrendered (or worse having to be put down due to owners unable to afford to keep and care for them.) We can help!!

Primarily our goal is to run a fundraising campaign to assist people having challenges with the wellbeing of their cats in financially troubled times. To help people keep ownership of their cats is our top priority. Failing that - adoption assistance and re-homing of the cat (via something else new and exciting coming soon) will also be an option available.
'Our goal is to essentially be the strong fence at the top of the cliff and not the ambulance at the bottom of it.'

It is a very stressful time for everyone and our cats offer us comfort and companionship, let's not make this time worse by having people surrender their fur-children. We can help!!
We are determined to be the strong **fence** around the cliff and would sincerely like your help to do this - we will be rolling out a fundraising campaign - Called Operation Cuddles, to enable us to make our vision a reality. But we do need your help on this new venture...

Our future aim is to continue to connect with the community by providing support, assistance, education and wellbeing programs within different organizations: educational facilities, the elderly community, disabled and special needs groups etc.

If you would like to get in touch, you can email us qtcats2020@gmail.com.
